

- An accreditation platform...

## ***A legally binding Charter of the times***

- ...truly global...

- ...bring value and reduce risk

- **Consumer-Centric**

**Risk** can be discuss within the realm of chance of loss, and exposure to the consequences that uncertainty constitutes risk to consumers.

As risks equally equates to consumers we briefly explain our Regulatory Affairs as a signatory to a legally binding consumer—centric Charter and the GOB and GCC marks, within the realm of risks, provides trust by focusing in the protection of communities

**700,000 plus organizations claim to carry management systems certifications.** *As we find that these programs propitiates a valuable mean to carryout our Charter we are Public Trust with inherent impartiality .*

*Because of the importance that management systems gain as a tool for the enterprise, business, and governments that brings benefits within their own realm of supply-chain, whether providers of services, food, medical, energy, or finished goods and that ties to the our Charter. A truly international platform that provides the necessary competence and impartiality to assure success by third party entities voluntary “benchmarking” to carryout a consumer-centric Charter, a path to assure that the application of management benchmarks as tool stay as a valuable ally to the objectives, goals, and beyond of the enterprise, businesses and governments with the purpose to protect consumers with integrity.*

*The GOB | GCC Accreditation — Recognition Platform provides a source for Regulatory Affair Practices in granting accreditation for certification and recognition of training venues, our trusted mark and credibility provides a basis to look no further.*

## ***A truly global authoritative and valuable platform***

---

When a certification protocol includes competent authorities from worldwide representation in their own professional fields and this as a Public Charity then impartiality and competence gains a different level of trust and credibility. And it becomes truly international in carrying out a Charter with a consumer-centric legal binding purpose.

When combining a Public Trust, then the decision to seek third party certification and selection of a certification partner relies in competence and impartiality that provides for the diversification of a “free market” economy. When an assessment certification body carries the GOB accreditation mark rest assure that in addition to fulfilling benchmarks of international acceptance that is consumer-centric within the meaning of the law.

If your responsibility encompass the decision to implement *better-in-class* benchmarks and to achieve recognition as well as selection of who will be the partner that impartiality attest to the competence of your organization’s services or products, you can rely on signatories and bearers of the GOB Accreditation—Recognition Platform.

Because the GOB operates globally, rest assure that the monitoring and surveillance sustains the assessment bodies we accredit and significantly reduces uncertainty in carrying out our consumer—centric Charter. The GOB mark provides confidence with purpose byway of integrity.

---

*An international platform that carries a global diversity through the Americas, Europe, Eurasia, Asia Pacific...*

The GOB Accreditation — Recognition Platform carries the legal authority to operate regulatory affairs byway of accreditation and recognition from the through a connected global community that maintains its sight on:

- Growing economies within the realm of a consumer-centric legally binding commitment
- Environmental, financial, medical, food supply, energy, healthcare, education, security, and regulatory sectors
- “Free Market Economy”
- Innovation and best practices

Consumer—centric, *et al* our legally binding Charter is to protect communities and consumers with resources that uniquely derive from donations, bequests, fundraising and grants.

## Providing approval and recognition

---

Signatory and bearers to the Charter of the GOB | GCC Platform, as we reserve granting recognition of entities, institutions and organizations to conduct educational approved venues to help raise the competence (level) of professionals within the consumer-centric sectors wherein we operate. The primary purpose of recognition is to grant a level of trust as well as to undertake professional development activities for the qualification of professionals. The GCC researches and investigates with the objective to find ways to improve operational performance, competitiveness, while pursuing reduction of risks, *et al* within the binding legal agreement to protect communities and consumers.

The Charter, through recognition activities equally works in areas that relate to education, healthcare, energy, environment, safety, security, medical consumer, regulatory compliance, off-shore work, outsourcing... areas to benefit professionals resulting in enhancing performance through protection of communities and consumers.

*...investigation, research and means to help  
in raising competence of professionals  
across frontiers.*

---

In carrying out the Charter, The GCC provides a platform for:

- Approval of training venues,
- To Recognize entities and academic institutions to conduct approved courses,
- Granting entities and academic institutions certification of professionals in a multitude of disciplines including international management systems assessment and professional care,

Under a *banner* to protect communities and consumers while operating from donations, fundraising and grants.
